ARCHITECTURAL LIGHTING DESIGN
Light is essential to life.

At Barton Associates, we believe light can do so much more than just help you see.

Lighting can…
Inspire subtle and dramatic emotions

Transform the experience of an environment

"By simply changing the color of the façade lighting, one of our signature buildings becomes an effective visual display for bringing awareness to various charitable causes."

- David Barto, PE, Associate Director, Facilities Planning & Construction
“The warm glow of the building along with its well-lit walkways and bright entrances generate a feeling of comfort and security for our students at night.”

- Kathyrne Shafer, Vice President of Operations

Messiah College, Calvin and Janet High Center for Worship and Performing Arts

Promote increased productivity

NURTURE

A SENSE OF SAFETY AND SECURITY

Harsco Corporation, Office Renovation
Located at the end of the Dickinson Walk, the bright entrance canopy serves as a beacon of light leading students towards a prominent destination for athletic and social events.

- Scott Nobel, Director of Projects, Planning & Construction
Accentuate architectural elements

“After dark, this immense glass and steel structure comes alive with light.”
- Jim Biesecker, Director of Facilities

Gettysburg College, The John F. Jaeger Center for Athletics, Recreation and Fitness

Make buildings work
BARTON ASSOCIATES IS PASSIONATE ABOUT....

LIGHT

Our award-winning Lighting Design Studio applies over 70+ years of combined experience in architectural lighting design with thorough understanding of electrical engineering principles to create unique and fully integrated lighting solutions. We believe in providing exceptional personal service by accentuating the client’s artistic vision without losing sight of their economic and environmental goals. We are committed to leading the industry in sustainable design techniques and are dedicated to educating our clients on cutting-edge lighting technology.
